

GALERIE LILIAN ANDRÉE in der Fondation Fernet-Branca
with Sabeth Holland, Matthias Holländer, Claudine Leroy, M.Drea, Pascal Poirot, Andreas Rickenbacher, Kathrin Spring, Ruedi Tschudin

Pop-Up Galleries

Under the title Pop-Up Galleries, the Fondation Fernet-Branca will present from **March 6 to March 27, 2022**, galleries from the Upper Rhine Tri-Region, but especially from France. Therefore, we are particularly pleased to be part of this exhibition. This event offers the most diverse artists from Alsace, Germany and Switzerland the opportunity to meet and exchange ideas here. On display will be their different creations as well as the wide range of themes treated, expressed in the most diverse techniques. This idea corresponds exactly to the concept of Galerie Lilian Andrée. Because from the beginning we have represented artists from these three countries. Later, other European and non-European countries were added.

We have been working with some of the artists presented at the Fondation Fernet-Branca for decades. The exhibition there offers an insight into their most diverse creative and expressive styles. We are fortunate to have a generous space for our gallery alone for the works. This demonstrates that our artists can brilliantly occupy museum spaces, which is undoubtedly a sign of quality. It is therefore not surprising that some of our artists are already represented in large private as well as public collections, i.e. museums.

We are very pleased to be able to present this diversity of creativity of our artists together with other galleries at this location.
