Immo Messe Schweiz (Annual Real Estate Fair Switzerland)

Sabeth Holland in Art Focus

"Spacers & Lovables". Under this title Sabeth Holland presents some of her colorful installations, sculptures and flower floats at the 2020 fair. We are particularly pleased that the artist, who has also exhibited in Hong Kong and Miami and created the station traffic circle in Wittenbach, is presenting her new "Spacers" with us for the first time. These are a kind of two-part creatures or objects from nature with abstracted eyes full of shine and glitter. The special thing about "Spacers" is that they are complex and can be installed in a variety of ways. They are based on a digital concept that leaves open the possibility of adapting the sculptures to the respective spatial conditions. This also makes them ideal for art in buildings. Anyone who wants to know more or is interested in a work of art: The artist will be on site for the entire duration of the fair.

The spacer figures speak for themselves and radiate pure joie de vivre and spread a good mood even at first glance. When you look closely, you will find countless features in the blaze of color. The sculptures pick up positive emotions and you understand them without words.
