

Room to Read Switzerland – Gala 2022 – Education Equals

Moonray Flowerfloat by Sabeth Holland - Live Auction Lot Nr. 3 –

This stunning artwork shows a spring flower or star in soft and gentle colors. The center of the flower is round and filled with a form of soft light. The association with the moon as such is intended by the artist. Added gold and shimmer bring life and unexpected reflections on the surface. The work represents a new form of artistic expression and once again has a sensual and extremely positive appeal.

The concept and name "Flowerfloats" emerged in 2017, with the first group of works going to an important private collection and some works acquired by the Appenzell Hospital. Sabeth Holland not only works as a painter and sculptor, but also develops concepts for art on buildings and for public commissions.

Sabeth Holland grew up in an artist household in the Rhine Valley/Switzerland. Since her first exhibition in 1991, she has achieved countless accolades worldwide, exhibiting solo and in groups in Europe, America and Asia. Some of Holland's paintings and sculptures were exhibited at the prestigious Fine Art Asia in Hong Kong last October, and in 2021 she was commissioned by Vifor Pharma to create an installation of nine artworks entitled "Ironbloom". Since her first contribution to a Room to Read auction in 2014, Sabeth Holland continues to represent powerful and life-affirming unique artworks.
